LABORATORY ANALYSIS REPORT

Account: 500-03-0000
Client: Schneider Labs Inc.
Address: 2512 W Cary Street
Richmond, Va. 23220
Project Name: Lab Disposal
Project No.: 040303
Job Location: Cary Street
P.O.#:

Date/Time Collected: 3/3/2003
Date/Time Received: 3/4/2003 11:00 AM
Date Reported: 3/22/2003
Receipt Temp., °C: 20
Sample Matrix: AQUEOUS

Sample Description: Tanker 1
SLI Sample No.: 0000000
Client Sample No.: 1

Reviewed By: C. Timothy Beasley, Organics Manager

All samples for organics testing should be shipped in cool conditions, 1 to 6°C. Quality Control Data available upon request. *For true values, assume 2 significant figures. Sample concentrations below the Quantitation Limit are noted as BQL (Below Quantitation Limit) or ND (None Detected) or with a "less than" (<) sign. Values designated with a "B" indicate presence of the analyte in the laboratory blank at a concentration above the Quantitation Limit. Surrogate Spike results designated with "D" indicate that the analyte was diluted out. Soil results are reported on a dry weight basis. All testing is done in strict accordance with Schneider Laboratories, Inc. protocol.
